Mrs. Harry Hunt, Editor  
George Wheeler, Publisher  
Subscription \$2.00 Per Year  
in Canada or the Commonwealth  
—\$3.00 per year in United States.

Mr. Glen Peters was a weekend visitor at the home of Mr. and Mrs. C. Graham.

Mrs. C. Smith returned home after spending a week at Rumsey with her son, Irvin.

Jimmy Graham left on Friday to return to Sea Island where he is stationed with the R.C.A.F.

Mrs. John Foray is a patient in the Drumheller hospital. We wish her a speedy recovery.

Mr. and Mrs. Harry Hunt, Mrs. Cadman Howard and Edyth Sparks were Sunday visitors to Calgary.

Mr. J. Buckner spent a few days at his home this week, returning to his job on Friday morning.

Mr. and Mrs. George Trepanier left on Thursday for a two weeks holiday at the Coast visiting friends and relatives.

Auvust Debacker met with a bad accident over the weekend and was a patient in the Drumheller hospital.

Mr. Loren and Mr. Eugene Haughman, Miss Judith Haughman and Miss Mamie Schaffer were Sunday visitors at Mr. and Mrs. Dick Pooles.

Mr. and Mrs. W. Hunt and boys of Calgary and Mr. and Mrs. Dave Ireland of Vancouver formerly of Carbon spent Sunday at the home of Mr. and Mrs. Harry Hunt.

## Cards of Thanks

We wish to extend our sincere thanks to our very many friends and relatives for their kind sympathy cards and floral offerings sent during our recent sad bereavement. A very special thanks to those who helped during our absence.

Violet and Don Pattison.  
30XXX30  
**FOR SALE**

The Avonsdale School and the Avonsdale Barn situated some four miles west of Carbon. Contact Mr. Sidsnev Cannings or mail offers to Mr. Sidney Cannings, Carbon, Alberta.

30XXX30  
**FOR SALE**—7 room Stucco Semi-Bungalow. Fully Modern Insulated. Full Basement. Large Landscaped Lot.  
—460-3rd Ave. W., Drumheller, Box 552.

Mrs. Doug Prowse has returned home from Edmonton where we understand Mrs. Prowse underwent an operation on her eyes.

Jimmy Cooper returned home from Banff after spending the summer with his sister and brother-in-law. Mr. and Mrs. Wes Watts.

Mr. and Mrs. Norman Nash and boys motored to Magrath on Sunday to visit Mr. and Mrs. Eddie Sellens and girls and bring home Barga, Nash who had been visiting there for two weeks.

The ratepayers of Carbon voted 99% in favor of water and sewerage facilities—a major step forward for Carbon, and one that will almost certainly result in a higher population in the years to come.

Mr. and Mrs. C. Graham entertained a few young people at their home in honor of their son, Jimmy, who left on Friday morning to return to the R.C.A.F. Station at Sea Island. Accompanying him to Calgary were Mrs. C. Graham and Mrs. Valter Hay.

The Pone Lease W.I. held their meeting Sept. 10th at the home of Mrs. Bacon with eight members and three visitors present. They decided to raffie a turkey for Thanksgiving to be drawn for at their next meeting. October 8th Tea prize was won by Mrs. Archie McKinnon.

John Morin was a weekend visitor to Calgary.

Miss Norma Cooper was a weekend visitor at the home of her father, J. Cooper.

Mr. and Mrs. Dick Poole had a few friends and neighbors at their home to give them a house warming in the new home.

Mr. and Mrs. Jack Adams and children were weekend visitors of Miss Elaine Poffenroth which at the home of Mr. and Mrs. Norman Nash.

Bill Gsaham and Mrs. Stines and family of Kamloops, B.C. and Mrs. Ruth and Mrs. John Wells and family Ray of Vernon, B.C. were Tuesday visitors at the home of Mr. and Mrs. C. Graham.

Mr. Fred Harsch is at present a patient in the Drumheller hospital, having been ill the past week.

Miss Dot Mortimer and Mrs. W. Breckenridge were weekend visitors at the home of Dr. and Mrs. MsFarlane.

Miss Violet Pattison left on Thursday to attend the wedding of children were weekend visitors of Miss Elaine Poffenroth which at the home of Mr. and Mrs. Norman Nash.

Mr. and Mrs. George Graham and family of Lacombe and Mr. of Kamloops, B.C. and Mrs. Ruth and Mrs. John Wells and family Ray of Vernon, B.C. were Tuesday visitors at the home of Mr. and Mrs. C. Graham.

## Pakistan Has Asked Canada To Send Wheat

OTTAWA.—Pakistan, facing prospects of a crop failure, has appealed to the federal Government for wheat to avert a food crisis.

The fear in Pakistani and Canadian circles is that the crisis, affecting some 80,000,000 people, could conceivably be exploited by Communist propagandists to the detriment of the democracies.

This is the first time that Pakistan has come to Canada for food aid. Primarily an agricultural country, Pakistan has in the past grown enough food not only to feed her own people but also for export. Drought and locusts have changed Pakistan's fortunes.

In initial talks with Canadian officials, Pakistan diplomats suggested that Canada might consider a loan of \$25,000,000 which Pakistan could repay in five or 10 years and which she could use to buy Canadian wheat.

Officials also explored the possibility of making a grant or loan available to Pakistan under the Colombo Plan, under which Pakistan is expected to get about \$10,000,000 worth of Canadian economic expansion aid this year.

### SELECTED

## Recipe

### OAT CRUNCHIES

Each spoonful of dough spreads on the pan and becomes a large, crisp, chewy cookie, open and lacy.

3½ cups rolled oats  
4½ teaspoons Magic Baking Powder  
¼ teaspoon salt  
¼ teaspoon grated nutmeg  
3 eggs, well beaten  
2 teaspoons grated orange rind  
1½ teaspoon vanilla  
1½ cups fine granulated sugar  
1½ tablespoons butter or Blue Bonnet Margarine, melted  
Grease cookie sheets.  
Preheat oven to 350 deg. F. (moderate).

Measure rolled oats into a bowl and sprinkle with Magic Baking Powder, salt and nutmeg; mix thoroughly.

Combine well-beaten eggs, orange rind and vanilla; gradually beat in sugar and melted butter or margarine.

Add egg mixture to rolled oat mixture and mix thoroughly.

Drop dough by small spoonfuls, well apart, onto prepared cookie sheets and centre each round with a piece of nutmeg.

Bake in preheated oven about 15 minutes.

Remove from pans immediately.

Yield: 5 dozen cookies.  
If cookie dough is too soft to roll, (which can happen easily in a hot kitchen), wrap it and chill a while, rather than add more flour.

Mormonism was introduced at Palmyra, N.Y., in 1823.

### Mrs. MacDonald Carey Puts On Blue Bonnet For F.N.E.!

Mrs. MacDonald Carey puts on BLUE BONNET Margarine for F.N.E. . . . Flavor, Nutrition, Economy! Like the famous screen star's wife, you will love the delicate, sunny-sweet taste BLUE BONNET adds to any food! You'll appreciate its nourishment, too. BLUE BONNET is Canada's fine quality, all-vegetable margarine. And you'll welcome the savings you make when you use BLUE BONNET for all your cooking and recipes as well as on bread. So buy BLUE BONNET, get F.N.E. . . . Flavor! Nutrition! Economy! BLUE BONNET margarine is sold in two types — regular economy package with color wafer, and also in the famous YELLOW QUIK bag for fast easy color.

### REAL HELP FOR Your Itching Piles OR NO COST

If Hem-Roid, an internal pile treatment, does not quickly ease the itching soreness and burning pain of your piles — it costs you nothing. Get a package of Hem-Roid at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.59 for the big 90 tablet package. If you are not 100% pleased after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund agreement by all drug stores.

**STAFF SHIFT**—Comm. Horatio Nelson Lay, 49, of Ottawa and Walkerton, Ont., (left), has been appointed assistant chief of naval staff in Ottawa. His previous job as naval member of the Canadian Joint Staff and Canadian naval attaché in Washington, D.C., will be taken over by 39-year-old Capt. Morson A. Medland, Toronto, (right), who will have the acting rank of commodore. He was formerly in charge of weapons and tactics at Ottawa.

## Funny and Otherwise

Mrs. Flanagan: "Was your husband in comfortable circumstances when he died?"

Mrs. Murphy: "No, he was half way under a train."

Mr. Staylate: "Do you know, Miss Sharp, that music quite carries me away?"

Miss Sharp: "Isn't that lovely? Do let me play to you!"

"Lady, could you gimme a quarter to get to where my folks are?"

"I guess so. Here's a quarter. And where are your folks?"

"At the movies, ma'am."

Indian: "I would like to have my name, 'Chief Screeching Train Whistle', shortened."

Judge: "What do you want it shortened to?"

Indian: "Toots."

"I hope you keep your cows in a pasture," said the newlywed to the milkman.

"Oh, yes ma'am, indeed we do."

"I'm so glad. I have always heard pasteurized milk was so much better."

Teacher: "How may one get good posture?"

Pupil: "Keep the cows off it and let it grow a while."

"I have a most valuable work to sell madam," said the book-agent. "It tells you how to do everything."

"Does it tell you how to get rid of a pestering book-worm?" asked the busy woman.

"It does, madam," returned the agent serenely. "It says you should buy a book from him."

"Why do you say I can give you a testimonial?" asked the astonished prison governor of the man who was being discharged.

"Because, sir, you can say truthfully that you've known me for five years, and have never seen me under the influence of drink."

"Well, Tommy", asked the lad's uncle, "are you in the football team at school?"

"Yes, uncle", replied the youth. "I've got a good position. I do all the aerial work."

"Aerial work", echoed his uncle, looking rather puzzled, "what's that?"

"I blow up the footballs", was the reply.

## Association Elects Its New President

REGINA.—Syd Stevens, editor of the Shaunavon Standard and Assiniboia Times, was elected president of the Saskatchewan division of the Canadian Weekly Newspapers' association.

He succeeds Stirling King of the Estevan Mercury.

Mr. Stevens heads the new executive named on the last day of the weekly newsmen's convention in Hotel Saskatchewan.

Elected as vice-president was Ken Mayhew of the Yorkton Enterprise, while Walter Ashfield of the Grenfell Sun was returned for another term as secretary-manager.

Named to the executive for 1952-53 were Peter Dierner of the Tisdale Recorder; Walter Telfer of the Humboldt Journal; and John Pinckney of the Rosetown Eagle.

President Stevens was installed in his new office by John Scott for 52 years editor of the Whitewood Herald.

## STRAPPING HONEYBEE COLONIES FOR MOVING

A better method has been designed to facilitate the strapping of honeybee colonies when they are to be moved to a new location. The conventional method generally employed by beekeepers has been to use hive staples or wood-lath material to fasten together the bottom boards, hive bodies and covers. Some of the disadvantages of these methods are: (1) the amount of labour and material involved; (2) the disturbance to colonies by hammering; (3) the mutilation of the hive equipment with frequent use; (4) the shifting of the equipment en route; (5) the unnecessary stings received by the handlers unless a proper job has been completed by experienced help.

Recent trials at the Apicultural Division, Central Experimental Farm, Ottawa, reports E. Braun have shown that single or double hive-bodied colonies can be rapidly and efficiently moved by the use of half-inch width flat steel strapping material, commonly used by large shipping firms. The colonies are prepared as follows:

(1) The entrance screens are inserted or attached.

(2) The ventilated bee-escape boards are placed on top of the colony after removal of the metal hive covers.

(3) The colony is moved forward so that the floor board rests on the upper part of the alighting board to

permit the insertion of the strapping material under the bottom board. If 2 x 2 or bricks are used as hive-stands, the strapping can be placed under and over the colony without any prior handling.

(4) The straps are cut to the desired length beforehand, but an extra six inches are allowed so as to permit the use of the material a second or third time. The two straps are placed approximately eighteen inches apart at the front and back end of the colony when using new equipment and a single band in the centre with old equipment.

(5) The tightener tool is applied, the metal-clip band put into place and crimped, the colony loaded and moved to the new location. The bands are cut close to the metal clip and stored for re-use at any future time.

The colonies thus prepared, by inexperienced help with a minimum of guidance, withstand lifting by the hand holes when one super is completely filled with honey. Jostling or dropping from a height of several feet (although this treatment is not recommended) and truck transportation over rough roads will not cause any shifting or dislodging of bottom boards or supers.

Further information may be secured from the Apiculture Division, Central Experimental Farm, Ottawa.

# Traces Of Indian Townsites Discovered Near Peterborough

—Believed 2,000 Years Old

PETERBOROUGH.—A party of Royal Ontario Museum archaeologists working along the north shore of Rice Lake 15 miles southeast of here, has found traces of what appears to be earliest highly-developed band of Indians inhabiting Canada.

Russell Harper, the museum's chief cataloguer and an authority on Canada's earliest history, considers the find one of the important pieces of evidence on Canada's early history.

Evidence indicates Indians were paddling the waterways of southern Ontario trading their wares when Caesar sailed the English channel. Mr. Harper estimates four townsites found along the shorelines to be 2,000 years old.

Although there is evidence of earlier Indians, particularly on Manitoulin island, none of these had such a high degree of development as the Rice lake group. The party under Mr. Harper has uncovered a wide variety of implements and ornaments made of copper and elaborate ornaments of shell. Among the discoveries was the earliest painted pottery to be found in Canada.

The copper came from the Lake Superior area and the seashell is of a type found along the Georgia and Florida coasts, indicating a wide system of trade with other tribes existed.

The townsites are along the old main route to the Northwest, up the Trent river through Rice lake, Lake Simcoe to Georgian Bay, which Champlain followed 1,600 years later.

The construction of elaborate burial mounds is an indication of the obvious social organization within the tribe.

The mounds are similar to those found in Ohio, which have been found to be 2,000 years old. Mr. Harper said this and the fact that the pottery discovered is similar to a type found in Massachusetts leads him to believe the Ontario tribe was a mingling of the groups.

Date of the settlement was established roughly by the rate of erosion on the slope at the base of which the biggest townsites sits. A piece of pottery of the type prevalent 300 years ago was found about two inches below the surface. The stratum of earlier remains was about a foot below the surface, indicating it had been there six to seven times as long as the later piece.

To pinpoint the date, carbon from the site will be sent to the University of Chicago for radioactive dating. A process using a Geiger counter can tell the age of carbon within 200 years by the amount of radio-activity it gives off.

The biggest townsites are on the present Hiawatha reserve of the Mississauga Indians and directly south of the present village of Keene, near the mouth of the Indian river. Another site is on a farm owned by D. Humphrey.

So far the group has found no traces of the shelters in which the Indians lived. Skeletons of two children about four years old have been uncovered.

## B.C. Couple Make Home A Wildlife Sanctuary

VANCOUVER.—Mr. and Mrs. James Stanton nurse wounded grizzlies and make pets of other bears. At their home on Knight Inlet, 150 miles northeast of here, wild animals have the run of the place, digging for roots close to the house, tramping across the front porch and snoring loudly at night outside a bedroom window.

At one time this summer 27 grizzlies were digging for roots by the house. Some years ago friends presented the Stantons with some South Sea pigs. For almost seven years bears and pigs roamed and fed together, but the pigs rapidly increased because neither the grizzlies nor the Stantons could bear to eat the pet porkers. Jim and Laurel Stanton nearly went broke feeding them. Finally they reluctantly called in friends to do the slaughtering.

The Stantons have always been that way about animals. Mrs. Stanton buys crushed oats for the deer they winter each year, but the Canada Goose, rescued with a frozen leg, prefers rolled oats and milk. Occasionally it flies about the living room.

Blue herons and three generations of eagles nest nearby and are fed on the beach in front of the house. They have three raccoons as pets, too.

## CANADIANS MUST BE FOND OF GREEN PEAS

HAMILTON.—Canadians have eaten more than 1,000,000,000 cans of green peas in the last 20 years, the American Can Company reports from a compilation of government figures. There were nearly 100,000,000 20-ounce cans of green peas, Canada's No. 1 canned vegetable, processed last year alone.

Today is yesterday's pupil.

WINNER—It was the end of a perfect day as Canada's Lorne Main, iron-man of the Mexico vs Canada Davis Cup Tie, walks off the Mount Royal courts in Montreal, winner over Mario Llamas. The five set battle highlighted the closing matches in which Canada swept the Tie 5-0. With Main is Captain George Leclerc, hailed as the "brains" behind the Dominion's decisive victory.

(By Francis James)

Dear Miss James:

We have a small breakfast nook off our kitchen. It is 7' x 10', and separated from the kitchen by a partial partition leaving an archway 4 feet wide. This has, until now, matched the kitchen which had pale cream walls, green woodwork. We have just finished redecorating the kitchen—walls are now soft yellow, woodwork is pale blue. We thought we would like something different for the breakfast nook and would appreciate your suggestions on color for this little room. The only furniture is a table and four chairs, in natural toned birch. Chairs have rush-bottom seats. The nook has one quite large window—three feet wide and four feet deep—facing south. I forgot to mention that both kitchen and breakfast nook floors are covered with bright navy linoleum with white crosscheck.

Mrs. G.L.

Dear Mrs. G.L.:

Since your kitchen walls are apparently plain, why not try a patterned wallpaper in your breakfast nook for contrast? A yellow background, to match the yellow of the kitchen, and pattern in a deep brown with touches of bronze, would be most attractive here. Ceiling could be in plain yellow, and you could carry your pale blue woodwork through to this area. If you have open wall-shelves in your kitchen, line the wall area behind these with your breakfast nook wallpaper. This would enliven your plain walls, and would help tie the kitchen and breakfast nook decors together.

You haven't mentioned whether or

not your kitchen has a window—and if so, what treatment you have given it. If the kitchen window curtain is in a plain fabric, curtain on window of breakfast nook could match this. If the kitchen curtain is figured, find a fabric in solid color to match main design in kitchen curtain. If you use cushions on chair seats, match them also.

History credits the first use of macaroni to the Chinese.

# Large Part Of Forest Lands Owned By Crown

OTTAWA.—Resources Minister Winters said that Canada's interest in perpetuating and properly managing her forest resources is based on economic considerations "of the greatest importance".

In an address prepared for delivery at the opening of the sixth British Commonwealth forestry conference, Mr. Winters said Canada has made great strides since the second conference met here in 1923.

But, he added, "we have some small distance to go before our overall forest management will be satisfactory, or the protection of our forests against fire and other natural enemies will be adequate."

Representatives of 18 Commonwealth countries are attending the conference, designed to exchange information and technical data on forest resources and products.

Mr. Winters said 60 per cent. of the land area of the ten provinces is covered by forests. Ninety per cent. of this is owned by the Crown.

"For many years the growth of our forest industries was based almost entirely upon the softwood portion of the forest but more recently increasing attention has been given to the utilization of hardwoods."

"The increasing possibilities for using profitably the hardwood content of our forest stands is extremely important from the point of view of forest management because it opens up the possibility of treating our natural mixed forests as a whole instead of removing the softwoods only and leaving residual hardwoods to take complete charge of many areas."

## SOMETHING NEW IN PRIVATE AIRPLANES

WASHINGTON.—The King of Saudi Arabia is getting a four-engine airplane equipped with a king-size bed and an elevated revolving throne, complete with safety belt.

Transocean air lines said the plane, one of five Douglas DS-4 Skymasters sold to Saudi Arabia, is being converted at Oakland, Calif., into the "most plush of all personal transports."

## On The Side : E. V. Durling

Quarrels among married people occur most frequently between 5 and 6 p.m. So says Alex Osborn in a book titled, "Wake Up Your Mind". That is because the greetings exchanged when the husband arrives home from the office are usually irritating. Alex says both husband and wife should figure out in advance what their words of greeting will be. Not just pop off with the first thing that comes to their minds. Keep that in mind, lady. When your hard-working husband arrives, don't say: "I'm exhausted!" or "What kept you?" or something like that. Throw your arms around him, give him a lusty kiss and cry out joyfully: "Hello, big boy. When you get washed up I'll have a cup of coffee all waiting for you." Mr. Osborn also has a solution for morning quarrels. He says a friend of his cut the breakfast battles to a minimum by buying two copies of the morning paper. One for his wife, one for himself. Sounds like a great idea.

Persons who live to a healthy old age are invariably questioned as to how they account for their longevity. This brings a wide variety of responses. Recently an extremely vigorous old fellow who is still participating in running races though in his eighties, stated he owed his longevity to eating mustard four times a day. He said he puts mustard on everything, including his breakfast cereal and apple pie. He further stated mustard is a sure cure for hiccups.

## Advice for Cigar-Smokers

Many women are opposed to cigars and try to get cigar smokers to go in for pipe-smoking. The ladies think smoking a pipe makes a man appear intellectual and distinguished. A cigar, they claim, makes a man appear tough and uncouth. For love, a man must make some sacrifices, but to ask a cigar enthusiast to abandon his favorite diversion is requesting much too much. Besides, it is not good for marriage. The husband who gives up cigars is likely to develop into a fellow who is easily irritated. Anyway, what I started out to say was that many men who smoke cigars know little of the art of this type of smoking. Always cut the end of a cigar. Never pierce it. Don't keep shaking the ashes off; that makes the cigar too hot, spoils the flavor and aroma.

## Confidence in Women

Queen Elizabeth does not go along with the idea that men are the best cooks. Her chef is a woman, Mrs. Alma McKee, who is of Swedish birth and married to a Scot. One of Mrs. McKee's specialties is smorgasbord. She is the first woman in British history to hold the position she does.

## Husbands as Teachers

Recently while a husband was trying to teach his wife how to drive a motor car, the lady became excited and backed the car up on the sidewalk and through a store window. So the couple had a day in court. The judge was sympathetic. That is, with the husband. He said no husband should try to teach his wife to drive a motor car. That a professional instructor should be engaged. That when a husband acted as an instructor, heated arguments ensued even among the most loving couples. His honor said the wives seemed to resent having their husbands teach them anything. That the ladies almost invariably lost their tempers. The judge, however, admitted that the condescending manner of most husbands when teaching their wives to drive was a source of understandable irritation. Anyway, sir, keep this in mind. Send your wife to an automobile school.

## Depends on the Boss

A married career woman is greatly inclined to fall in love with her boss. This in fact, is one of the great dangers of having a wife who is a business woman. If she doesn't actually fall in love with her boss she is inclined to have an intense admiration for him and her husband often suffers by comparison. That's what Prof. Ferdinand Zweig maintains. He has been doing some research on married career women. I am inclined to disagree with him. Experts checked on this situation long ago and found very few married women fall in love with the boss. In fact, the situation is a rarity. However, I regret to state the experts found that married career women do quite a little flirting with fellow workers in offices. Especially with bachelors. This situation bachelorette workers find very irritating.

2999

## GEMS OF THOUGHT

### INDIVIDUALITY

God has endowed man with inalienable rights, among which are self-government, reason, and conscience.—Mary Baker Eddy.

Every human being is intended to have a character of his own; to be what no other is, and to do what no other can do.—William Ellery Channing.

We live too much in platoons; we march by sections; we do not live in our individuality enough; we are slaves to fashion in mind and heart, if not to our passions and appetites.—Edwin Hubbell Chapin.

He who thinks for himself, and rarely imitates, is a free man.—Friedrich G. Klopstock.

Individuality is everywhere to be spared and respected as the root of everything good.—Jean Paul Richter.

The worth of a state, in the long run, is the worth of the individuals composing it.—John Stuart Mill.

Both sides bid up to game in a suit called by the enemy on this hand from international trials. In both rooms West bid One Club, North One Diamond, East One Spade, and South doubled to show a good Spade suit in his own hand.

In Room 1 West bid Two Clubs, North Two Diamonds, East Three Clubs and South, suspecting a psychic, jumped to Four Spades. West sacrificed in Five Clubs, doubled and one down.

At the other table West's Two Clubs was passed round to South, who bid Two Spades and then raised North's Three Diamonds to Four. Five Diamonds is unbeatable, but North made the "master bid" of Four Spades, and this doubled contract was made. It falls if West gets a Diamond ruff and continues with two rounds of Clubs.

HIS ENTERPRISE DIDN'T SHOW PROFIT—Private and daring enterprise on the part of Kenny Mirvey, third from left, produced no profit and landed him instead on Ellis Island, the U.S. immigration clearing station. Kenny, Turkish born but claiming U.S. citizenship, stowed away on the French liner La Liberté in France. Kenny and three other stowaways were discovered a few miles from New York, so Kenny jumped overboard and set out under his own power. The liner put out a lifeboat and hauled the rugged individualist aboard.—Central Press Canadian.

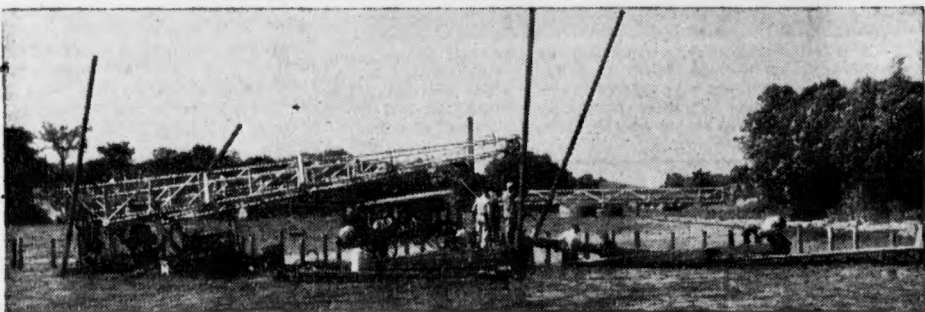

# Rex Received Royal Reception From Porcupine

★ ★ ★ ★

**POUCH FINDS PUSSY WAS A PORCUPINE**—Rex a Boston terrier puppy, shows the royal reception he received after snapping at a porcupine in the woods near his home at Gardner, Massachusetts, possibly in the mistaken belief that he was after a cat. Veterinarian Edward A. Blake removed over 2,000 quills from the pups head and inside his mouth while Rex was under anesthetic. With eyes still puffy Rex is pictured after being de-quilled, (right), sadder and—we hope—wiser.

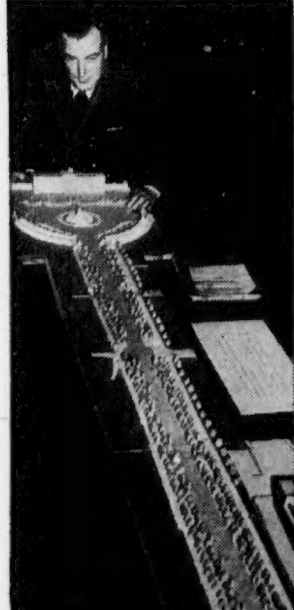

**IN THE DAY'S WORK OF PIPELINE LAYING**—One of the hazards in laying an oil pipeline is shown here. Workmen rigged a temporary bridge across the Trent river in building the line from Montreal to Hamilton and ran equipment on to the bridge to sink the line several feet under the bed of the river. The bridge collapsed and the riggers had to start all over again. The pipeline runs across southern Ontario and will carry western oil.—Central Press Canadian.

**U.S. MAY BUY BRITAIN'S "ROCKET WITH BRAINS"**—A British guided rocket soars skyward a moment after being launched. The initial boost motors are attached to the rear and fall off after the missile has reached its cruising speed. The British defence ministry has announced "progress" in guided missile development, and the U.S. is considering purchasing this supersonic, pilotless "brain" to add to their arsenal.

**PHOTO OF THE ELUSIVE FLYING SAUCER**—This photo was made by a U.S. coast guard cameraman at Salem, Mass., and shows what passes as flying saucers in the minds of most persons who saw them. The photo has been examined and re-examined by officials who offer no explanation as to what they are. At the time, radar instruments showed moving objects in the sky. Physicists still maintain the saucers are non-material and due to light refraction.—Central Press Canadian. 2999

**MAKING PLANS FOR CORONATION**—David Eccles, British minister of works, is shown with a model of Buckingham Palace and the Mall as they will be transformed for the coronation of Queen Elizabeth II next June. The layout of the stands is included in the model.

# New Education Technique Tried By U.N. In India

★ ★ ★ ★

**U.N. TRIES NEW EDUCATION TECHNIQUE**—The experience of previous efforts to teach the illiterates of such countries as India is being utilized by the United Nations. In the grim struggle for bare existence, children who learned to read and write soon forgot their learning or developed no enthusiasm to pass their knowledge to others. So the U.N., while teaching the basic reading, writing and arithmetic relate all their teaching to the community development and to the problem of producing enough food to live. Here is a classroom in Haldwani, India, with a gray-bearded savant teaching the young. And coincidental with their teaching, their parents are being instructed on hygiene, husbandry and agriculture.

It needs no university training for India's farmers to see the advantage of education when it means a cure for cattle disease and therefore an escape from hunger. To make schooling a thing of meaning to the poverty-stricken villagers, the principal of Janata college, India, shows where his knowledge can benefit them; he inspects a bullock's mouth for signs of disease, tells the farmers how to diagnose and cure the disease.

**DUKE AND DUCHESS ON HOLIDAY**—In mood and in attire, the Duke and Duchess of Windsor look the part of happy tourists on a holiday in Italy. They are shown strolling along one of Rapallo's streets.

## Tips For Your Bag of Pitching Tricks

Next to control the most important thing to a pitcher is a "speedball". To develop a "speedball" you must concentrate on your pitching action, getting a high kick and a hard, forward and downward motion of your upper body. As your arm comes through in the pitching action make sure the upper body comes with it—hard and fast. You must also get plenty of wrist snap as you let the ball go. Hold the ball with the hand turned back and then as you let the ball go snap it forward with a hard snap of the wrist.

Speed in pitching is also partly mental. You must think "speed". As you pitch make up your mind that you will throw faster. This mental effort will help you more than you think. Try it and see!

Concentrate on good timing of a smooth body action. Always hold the ball across the seams and hold it with a relaxed finger grip.

Another way to add speed is to use a long follow-through. Let your arm and body continue this forward motion until they stop naturally. Don't try to stop them. This is an important point.

The next most effective pitch is a change-of-pace. This type of pitch, when properly delivered, will do a great job for you. The beauty of having a good change-of-pace is that it bothers even the very best of hitters.

To throw a change-of-pace use the following method: hold the ball further in the hand; grip more tightly and don't use the wrist snap. Use exactly the same action in every other way as you do when throwing the "speedball".

Remember—the idea isn't to change from "very fast" to "very slow" but to get just enough change-of-pace to spoil the hitter's timing of the pitch.

## Everybody's Weak Spot But Yours

The "weak spot" of practically every tennis player is a ball hit deep and hard to the backhand corner of his court. Many players can return such a shot safely enough but only one in a hundred can return it with any great speed, power or accuracy. The smart thing to do is to place several shots well over on your op-

ponent's forehand court and then when you have him over on this side of his court, suddenly make your play for his backhand corner. When you do this prepare for a fairly easy return and get ready to put it away for a sure point.

## Never Give Up Until the Play Is Over

Too many athletes become discouraged too easily, stop really trying because things look hopeless. This is not the way to become a champion!

Get the habit of driving hard no matter what the score is. The record book is full of facts that prove many a game or event that looked hopelessly lost was eventually won just because someone did keep driving hard, fighting with everything he had until the last second.

When you keep driving, keep fighting your hardest, you always have a chance to pull a game out of the fire. So, remember, get this habit now!

To join Sports College all you have to do is write a letter saying you want to join and mail this letter to Sports College, Box 99, Toronto 1, Ontario. Then, we will send you a registration form. When you fill this out and return it you become an official member and are eligible for all Sports College services and activities. A membership card and a copy of the latest edition of the Research Guide will be sent to you when your registration form is received. So, join now!

## World Happenings Briefly Told

The Birmingham council, after profound deliberation, decided that bus driving is not a man's prerogative. The mayor now will consider plans to ease transport staff shortages by employing women bus drivers.

Princess Anne, who is two years old, is sitting for her first portrait. This is a miniature water-color that will match similar paintings of Prince Charles, the Queen and the Duke of Edinburgh.

A record breaking 115,788,073 bushels of grain were shipped from British Columbia ports during the 1951-52 crop year. More than half of the grain went to Great Britain, Japan and India.

The Queen has announced her Royal household—about 250 officials ranging from the Lord Chamberlain to the Yeoman of the Guard. There are few changes from the household which looked after the late King George.

For their first meeting in Canada, the international weed control conference will be in Winnipeg Dec. 9 to 11. Fourteen north-central United States and four western Canadian provinces will be represented. More than 600 scientists are expected to take part.

Two pilots claimed a Canadian record for dual gliding. Paul Tingskau and Art Currie took off from Buttonville, 10 miles north of Toronto, and soared for six hours, 17 minutes. They said that during that time they climbed 5,600 feet and flew as low as 700 feet.

In China the peach tree is thought to be the tree of life and the tree of death. 2999

## FIRST AID

**First Aid is just what the two words imply, namely the earliest possible intelligent aid or help given to the victim of an accident or sudden illness. This aid is usually of a temporary nature only, to be given at once, at the scene of the accident or sudden illness and before a doctor is available to assume responsibility.**

## Injuries Due To Heat And Cold

### Burns and Scalds

A burn is an injury to the skin and sometimes the deeper tissues of the body, caused by contact with heat. This contact may be in the form of hot solids, liquids or steam, air or other gases, sunlight or ultra violet light, electricity, x-rays or radium or from chemicals such as strong acids or alkalis.

A scald is a burn caused by contact with hot liquid or hot moist vapour.

A chemical burn is caused by strong acids or alkalis and the damage to the tissues continues until the chemical has either been neutralized or greatly diluted.

Electrical Burns are of two kinds:

(1) Flash burn due to a short circuit producing a flame of intense heat.

(2) Contact burn in which the body completes the circuit between a live wire and the ground, and the burn occurs at the points at which the current enters and leaves the body.

Flash burns are frequently fatal because of the large surface of the

body which is involved and also because the super-heated air may be inspired into the lungs.

Contact burns are usually associated with an electric shock which may be more dangerous to the victim than the burn, even causing death. The extent of the damage is usually much greater than just the area of contact. The burns are localized, deep, dry, heal very slowly and are generally less painful than burns from other causes.

Radiant energy burns are caused by sunlight or ultra violet light. Although usually superficial they often cover a large area of the body surface which may result in a critical condition.

Radiation burns from X-ray and radium, although not as frequently seen by the First Aider are assuming more importance because of the development of the atomic bomb. Damage to the tissues is essentially the same as in any other type of burn.

A conference on world population problems will be held in 1954 under the auspices of the United Nations, in collaboration with the International Union for the Scientific Study of Population and interested U.N. specialized agencies.

## Still Loves His Craft

# Old Indian Artist One Of The Last Argillite Carvers

VANCOUVER.—Captain Brown, 73-year-old Haida Indian, is one of the last of British Columbia's unique artists, argillite carvers, whose works are known in many of the world's leading museums. Argillite is a slate found on Graham Island, of the Queen Charlotte group. When quarried it is comparatively soft, but hardens quickly when exposed to air. Its surface takes a beautiful polish.

When white men first arrived on the Pacific coast, the Haidas were carving wood, bone and ivory, into almost everything from spoon handles to ornate ceremonial masks.

These products were sold readily to the whites and soon the Haidas were reputed to be the best wood carvers in North America. They acquired steel tools and learned to carve gold, copper and silver, and later, slate.

Some of the oldest and most ornate pieces were collected before 1800, but the finest carving was done from 1830 to 1890.

In that period handsome boxes, carefully joined by wooden dowels and fish glue, pieces of iridescent abalone shell with slate inlays and small totem poles were turned out.

Best known carvings were the totem poles, symbolizing mythical and religious stories.

No matter what they carved there was always a "flowingness", symmetry and simplicity creating distinct beauty.

The Haidas used dried skin of sharks or dogfish, or just the palm of their hands to add polish to their work.

A figurine created in 1833, now in an eastern United States museum, is said to be the finest example of work by any North American aboriginal. It is called "Bear Mother", based on an Indian legend of a prin-

cess captured by bears and forced to marry the king of the bears.

She had a child by him and the figurine depicts with perfect rhythm of line and pattern the bear mother writhing in agony while nursing her ferocious offspring which is half bear and half boy.

The Haida's skill began to wane late in the 1800's and early 1900's when they sacrificed skill and patience for mass production to satisfy the demand for their work.

However, old Captain Brown, peering from near-sighted eyes as he plies his carving tool, still gives loving care and patience to his craft.

## ODDITIES In The News

Charles McNichol was surprised when firemen in Peterborough, Ont., arrived to extinguish his backyard rubbish fire on a Monday. They told him outside fires are not permitted on washday.

Lt. Cmdr. Cecil A. Commander, Fort Worth, Tex., got a promotion to commander. Commander Commander, a reserve officer on inactive duty, commands a naval air reserve squadron.

Mrs. Minnie Rayne is approaching her ninth year as road sweeper for a local council in London. She claims to be the only woman in Britain doing such work.

A tiny radium clock attached to a homing pigeon's wing to record the bird's flying time was described at Cape Town, S.A., by Sir Lawrence Bragg, director of the Cavendish laboratory at Cambridge. The clock functions only when the bird's wing is outstretched.

Judge Paul E. Krause, of Detroit, dismissed larceny charges against Mrs. Mary Domogala, 46, because of lack of evidence. A store detective told the judge he saw Mrs. Domogala steal eight wieners while she was shopping. "Where's the evidence?" Krause asked. "There is none, your honor," the detective said. "She ate it."

### Smile Of The Week

Jasper: "What made you leave Mrs. Blah's boarding-house after living there for three years?"  
Casper: "I found out that they had no bathtub."

Occupied Belgium had more than 150 underground newspapers to harass the Nazis during World War II.

CHINCHILLA CAPE—Here's how the little grey rodent looks when made into an evening wrap. This fishu-bolero is in natural grey chinchilla draped into a wide V-back.

## New Canadian Stamps May Be Ready Next Year

OTTAWA. — Government officials think they will have portraits of Queen Elizabeth on Canadian postage stamps in time for her coronation next June, but they doubted they could do the same for the country's coins and bills.

"The job of changing the portrait of the reigning monarch on stamps, coins and bills is long and involved," one official said. "It cannot be done in a hurry because the portrait must be approved by the queen. This approval has not yet been received."

The post office department has started work on the design of certain stamps which will bear the portrait of Queen Elizabeth. If there is no change in current policy, the Queen's portrait will appear on one, two, three, four and five-cent stamps.

A post office official said "it will be at least three months before the design of the new stamps is completed." He said the department was hopeful that an approved portrait would be received soon and that the department would be in a position to put the stamps into circulation before the coronation.

## Quick Canadian Quiz

1. Who founded the famed shrine of Ste. Anne de Beaupre in Quebec?
2. Rank these cities by population totals: Montreal, Que.; Los Angeles, Calif.; Rio de Janeiro, Brazil.
3. Which of these industries pays highest average wage: printing and publishing, primary iron and steel, motor vehicles, coal mining.
4. Federal government revenues were \$502,000,000 in 1939. What is the estimate for this year?
5. At the closest point how many miles separate P.E.I. from the mainland?

Answers Found In Another Column

## Highly Specialized Task Is Done By Community Press

WINNIPEG.—In a small room, sitting behind a desk cluttered with the articles of his trade, an old man bends over a typewriter putting a news story together. He is 88-year-old Konstantin Flemming, and he writes Swedish. More than 3,000 persons across Canada eagerly read what he writes.

Flemming was one of the first members of the "Little People's Press", a Winnipeg community of 15 newspapers which claims a readership of 200,000 in Canada, the United States and Europe.

These papers are published in many languages—Croatian, Ukrainian, Polish, German, Yiddish, Norwegian, Hungarian, Swedish, Icelandic and Slovakian.

The main reason they have concentrated here is Winnipeg's geographical location. Lower transportation

costs are a big factor in their tight budgets.

The community press has a responsible and highly-specialized task—to link the Canadian way of life with the traditions of Europe, and to introduce Canada to the newcomer. Some of the sheets have been performing this task for more than 80 years.

Although the language is foreign the spirit is Canadian. Michael Pohorecky, editor of the tri-weekly New Pathway says: "The men who work in this field are dedicated people. They work with an emphatic zeal for the cause of Canadian citizenship."

One of several publications offering complete information services to new immigrants is the Hungarian News which distributes without charge a 256-page book on Canadian history and customs.

This book, written in Hungarian by editor G. Nemes, gives Hungarian Canadians a description of Canada in their native tongue.

"Those who enter jobs from the moment they land, and never have the benefits of a Canadian education, can never get a true picture of Canadian history unless material of this sort is provided," said Nemes. "I feel we editors have a definite duty in this field."

The Ukrainian paper has 20,000 subscribers compared with the 3,000 of the small Swedish press. All foreign-language papers, compete for advertising revenue; their particular problem is to convince the advertiser that their special language group will respond to his product.

## Mysterious Disease Puzzles Biologists

WINNIPEG. — Identification of a disease which killed thousands of gulls in the Round Lake district, 60 miles north of Brandon, may not be made for two or three years.

Alex Reeve, biologist with the provincial game and fisheries branch here, said that biologists are satisfied it is not botulism, an ailment common among ducks in dry periods. As only young gulls were affected, it might indicate an upswing in juvenile mortality.

A good-sized circus elephant will eat up to 125 pounds of hay and 25 pounds of bran mash a day.

## Awards Are Given Ship's Officers For Good Job Done

VANCOUVER, B.C. — Twelve unsung workhorses of the transport department's crew of weather forecasters on the west coast will be given awards soon for their part in keeping tabs on the weather.

The men are deck officers of 12 deepset cargo ships who radio vital information to the sea island meteorological station every six hours as their ships sail out of Vancouver.

Officers aboard 39 other Canadian ships will also be honored for doing a good job.

Each ship selected for weather duty is given an expensive and intricate set of instruments and the deck officers are instructed in their use. The ships are chosen because they plow through the ocean lanes where the big storms and air masses originate.

Each officer volunteering for the job will get a special volume of the book "The Sea Around Us" by Rachel Carson.

## Alberta Appears To Have Uranium Rush

EDMONTON. — An Alberta Mines Department official said a uranium "rush" appears to be under way in the Lake Athabasca region of north-eastern Alberta.

The rush follows a report that prospectors found a rich uranium deposit in Alberta near the Saskatchewan boundary. The official said 33 mineral claims have been recorded in the area and many others staked.

## Wildlife Specialists Tell How Whooping Cranes Were Discovered

(By Don Matheson, Canadian Press Staff Writer)  
WINNIPEG.—A mystery to wildlife specialists for 50 years — where almost extinct whooping cranes breed in summer — may have been solved through a one-in-a-million chance.

Two United States Field and Wildlife Service workers reported they spotted two adult cranes from the air while flying in marsh area around Great Slave Lake, 500 miles north of Edmonton.

Scientists Robert Smith of Medford, Ore., and Everett L. Sutton of Aberdeen, S.D., have flown 25,000 miles since May 15 during a waterfowl survey of the north.

In a telephone interview recently from Delta, Man., 50 miles northwest of Winnipeg, Smith told the Canadian Press how the birds were spotted.

"We were making a regular survey through the marshes—counting waterfowl broods on a strip from the aeroplane—and the cranes were right on our line of count," he said.

One crane was spotted July 11, the other the next day. Pilot Smith brought his plane down to 100 feet to make several passes over the birds and take both color and black-and-white photographs.

"It was impossible to land for a ground check," Smith said. "You couldn't land within 40 miles of said. It now was too late in the season."

Some scientific body will possibly take the next step, sending a ground party to the area. Field expeditions will probably try to find what enemies have reduced the whooping crane population—what predators attack eggs, nestlings, or the adult birds.

Mr. Smith said sighting the birds is not conclusive evidence that the breeding ground of the cranes is in that area.

"But we suspect that it is," he said.

"Both were adult cranes and from their actions we believe their nests were close by."

Significance of the discovery is gauged by the fact that only a few specimens of the four-foot waterfowl remain on the continent. About 30 winter on the Texas coast 3,000 miles from Great Slave Lake.

Smith said the birds were spotted 30 miles apart and were not one pair. They were either halves of two nesting birds or two lone birds.

Two searches were staged for the crane nesting grounds in 1947 and 1948 without result, he said. Since then the hunt has been "more or less incidental to our other work."

Nothing further can be done to study the findings this year, Smith

## Helpful Hints

To bleach a discolored wooden kitchen table scrub well with a solution made of one teaspoon oxalic acid to one cup of hot water. Apply with a brush and avoid getting it on the hands.

If you cook chicken at low temperature until it's well done you'll have better flavor, better texture, less shrinkage and more attractive servings.

A good dessert can be prepared by putting three ripe bananas through a ricer. Mix with sweetened whipped cream that has been flavored with a few drops of vanilla. Serve cold in tall glasses. Put a macaroon in the bottom of each glass.

Did you know a dash of nutmeg brings out the flavor of rhubarb? Try it next time you stew the fruit or put it in a rhubarb pie.

## Patterns

Easy To Handle

7364

by Alice Brooks

Two favorites — pineapple design and filet crochet for this unusual set! Crochet each design separately, then join them. For chair set, dresser set, place mats.

Handy pickup work for summer weather. Pattern 7364 has charts; crochet directions.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Winnipeg Newspaper Union, 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

Exciting! Our 1952 edition of Alice Brooks Needlecraft Book! Brimful of new ideas, it's only Twenty-five cents NINETY-ONE illustrations of patterns of your favorite needlecraft designs, plus SIX easy-to-do patterns printed right in the book.

### ANSWERS TO QUICK QUIZ

ANSWERS: 5. 10 miles. 3. Primary iron and steel. 1. In 1650 storm-wearied Breton sailors built a chapel to Ste. Anne in thanksgiving for their safe landing. 4. \$4,279,000,000. 2. Rio de Janeiro (2,336,000), Los Angeles (1,957,692), Montreal (1,021,520).

## APPETIZING RECIPES

Lime Milk Sherbet with Chocolate Sauce and cookies is a wonderful combination that's sure to please the family.

### Lime Milk Sherbet

Three quarters of a cup sugar, 1 cup water, 1 package lime jelly, 1 cup orange juice, 2 tbsp. lemon juice, 2 cups milk.

Combine sugar and water and boil gently 2 minutes. Dissolve gelatin in the hot syrup. Then add fruit juices and pour into freezing

tray of automatic refrigerator, setting control for coldest freezing temperature. When mixture is partially firm, turn into cold bowl and beat with rotary egg beater until fluffy. Add milk and beat until blended then return to tray. Freeze 30 minutes longer, stir, then freeze for 5 to 6 hours. Makes 1½ quarts. Serve with chocolate sauce.

## OUR COMPLETE SHORT STORY—

## Important Issue

The City Editor Did Not Know  
Whether It Was a Good Idea to  
Have a Husband and Wife on  
The News Force.

By

Ona Freeman Lathrop

WHEN she came into the newsroom, she saw him eyeing her with that wolfish gleam. Well, she wouldn't speak. She sailed over to her desk and began sorting her notes. He was becoming insufferable!

There was a note in her typewriter. "The day is dark and nothing worthwhile unless you turn to me your lovely smile."

Surreptitiously she stuffed it into her purse. For an hour she typed furiously. She had a deadline to meet. Perfectly good excuse for not dawdling around with amorous males. Then she heard him coming. She didn't look up, sensing that the city editor had a quizzical eye on them.

"Pardon me, madam, could you suggest a good method of making up with your wife when you've had an altercation? Would you say candy, flowers, dinner invitation, or a new hat would be best?"

Idiot! He wasn't going to get a rise out of her.

"So, Mr. Dayton! You've been quarreling with your wife again? Don't come to me with your troubles. I'm no love-mo expert. I write a news column."

"But this wasn't a quarrel. Merely a difference of opinion. She said—"

"Oh, yes, she said, 'No, your socks aren't darned. They aren't even washed.' And you said, 'I should think you might at least attend to a few minor household details.' Oh, I know that old routine. When my husband begins that line, I know exactly what is coming."

## How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store.

## Fashions

R4613

SIZES  
12-20

by Anne Adams

SEW ONE dress, have an entire wardrobe! This magic budget saver is a sundress and has THREE smart charming accessories: collar, capelet and a bolero. And they make three different versions! Marvelous to pack in your vacation or weekend bag!

Pattern R4613: Misses' Sizes 12, 14, 16, 18, 20. Size 16 takes 4½ yards 35-inch; ¾ yard contrast.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept.,  
Winnipeg Newspaper Union,  
60 Front Street W., Toronto.

"So you quarrel with your husband too! Just a couple of misunderstood spouses aren't we? How about lunching with me and moaning into our coffee cups about it all?"

He was piling up her papers with his long slender hands. She tried not to look up. Why did he have to be so attractive and persistent, yet such a hot-headed mule?

"No, thanks. I'm lunching with Dan. He and I have to talk over the picture layout for my Sunday feature."

"How about making it a threesome and laying all our cards on the table?"

She hoped her eyes snapped a positive refusal. "That would defeat the purpose of the whole arrangement, wouldn't it? A third disinterested party—unmarried and definitely attractive—would certainly be bored by a couple of unhappily-married moaners. The answer is still no."

She gathered up her purse and her Sunday feature and dashed out the door. He was following her. At the turn of the stairs she could see his long legs gaining. If only she could make the women's locker-room before he caught up. But she didn't.

"Listen, angel-face. We can't keep this up indefinitely. You know I'm crazy in love with you, and you surely can't deny you are a little wacky about me. Why don't we do something about it?"

She turned to face him. "Are you suggesting that we simply ignore our marital difficulties and go gallivanting about together like a couple of lovebirds? Wouldn't that be hypocritical?"

"It would be enjoyable. Because I don't see eye-to-eye with my wife about silly things like housekeeping, and you don't see eye-to-eye with your husband about washing his socks, why should we spoil a perfectly good love-life together?" He was running an experimental hand up and down her arm.

She wrenched away. "It may not be grounds for divorce that your husband insists on wearing fancy wool socks that the washwoman won't do but, after all, I have my job and I certainly can't be expected to attend to such sordid details like a mere housewife."

"Inconsequential," he scoffed. "Are you saying that I don't have a leg to stand on in my case against my un-understanding husband?" she challenged.

He grinned. "On the contrary, I would swear that you have a couple of perfectly beautiful legs to stand on. In fact, in those nylons they are practically demoralizing me!"

She stamped her foot. "Is it or isn't it important that a woman who wants to keep on working so that the couple can accumulate funds faster to build a home can't attend to all housekeeping details?"

"It is—or I mean, it isn't important. Or—oh gosh, Phyl, you get me all mixed up when you ask involved questions and look like that. What I really mean is that I wouldn't care whether my socks are darned or not, if only you love me. You spitfire, I'll make you forget there ever was a sock in the world."

The city editor came clipping down the stairs and stopped in his tracks. "You love-birds made up again? I declare I don't know whether it's such a good idea to have a husband and wife both on the news force. Or maybe it is—I dunno." He went on down the hall grinning and scratching his head.

### Do You Know That . . .

Grasshoppers can travel at least 10 miles a day, and as far as 215 miles in 14 days, according to tests made in North Dakota.

### THE TILLERS

—By Les Carroll

**HELICOPTERS HOP ACROSS ATLANTIC**—In a 16-day trip from an air force base in Massachusetts two U.S. army helicopters proved they could fly the Atlantic. Authorities called the flight "Project Hopalong" as the 'copters stopped at Maine, Labrador, Greenland and Iceland before landing at Prestwick, Scotland. The two egg-beaters are shown above Prestwick just before landing. They flew at an average of 90 miles an hour and their longest hop was over 800 miles.—Central Press Canadian.

## WESTERN BRIEFS

### Volunteer Workers

**FILLMORE, Sask.**—Footings for the new school at Fillmore have been laid and work of erecting the new building is progressing steadily with much of it being done by volunteers from the town and district.

### The Best Drivers

**VANCOUVER.**—A driving instructor here suggested that "dumber persons" make better drivers. Once the dumb student grasps the mechanics of driving he remembers them," he said. "It's the brainy ones that give us the trouble."

### Home Defence

**SUTHERLAND, Sask.**—The council of this suburban Saskatoon town plans to organize old-age pensioners into a civil defence group.

### Leaving for Uruguay

**LACOMBE, Alta.**—Miss Martha Horn is leaving for Montevideo, Uruguay, for a five-year missionary term with the Seventh Day Adventist Church. Miss Horn previously has never travelled farther than Saskatchewan and British Columbia.

### Teacher Shortage

**VICTORIA, B.C.**—Education Department officials said a teacher shortage threatens in British Columbia because so many are getting married. At the same time an increase of 15,000 is forecast for the school population next term.

### Set a Record

**CHURCHILL, Man.**—An ambulance in a test run to the airport here set a record of 4½ minutes for the two-mile trip, including time for a telephone call and a trip to the hospital for a medical orderly.

### Agreement Signed

**WINNIPEG.**—Provincial Treasurer Ron Turner has signed the new Dominion-Provincial tax rental agreement under which Manitoba received a yearly grant in lieu of certain tax rights. Payments during the first year of the new agreement will be \$22,934,000. The old agreement expired March 31. 2999

## Large Increase In Turkey Production

**REGINA.**—A phenomenal increase in turkey production has occurred this year in Saskatchewan, F. E. Payne, Saskatchewan poultry commissioner, reported in a bureau of publications release.

There was an increase of 143 per cent. in approved turkey poult hatched this spring in the province. This puts Saskatchewan in first place in Canada for the number of poult hatched to June 1.

A total of 626,357 was hatched in comparison to 584,984 in Ontario, the next highest.

Greater turkey production is evident all across Canada. The average increase was 60 per cent., Mr. Payne said.

Turkey raising is becoming a specialized business. There are more flocks of more than 1,000 birds than ever before. One flock near Mortlach has 17,000 birds.

Most of the turkeys are of the broad breasted bronze breed. They are large birds and make good gains.

Eat Right—Live Right—Feel Right

### GOLD PRODUCTION UP

There were 1,435,066 fine ounces of gold mined in Canada in the first four months of 1952.

The average factory price of a Canadian-made apple barrel is \$1.62.

## Luscious HONEY BUN RING

Quick to make  
with the new  
Fast DRY Yeast

Hot goodies come puffin' from your oven in quick time with new Fleischmann's Fast DRY Yeast! No more spoiled cakes of yeast! No more last-minute trips—this new form of Fleischmann's Yeast keeps in your cupboard! Order a month's supply.

### HONEY-BUN RING

• Scald ¾ c. milk, ½ c. granulated sugar, 1½ tps. salt and ¼ c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl ¾ c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 mins., THEN stir well.

Add cooled milk mixture and stir in 1 well-beaten egg and 1 tsp. grated lemon rind. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of

dough. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Punch down dough and roll out into an oblong about 9" wide and 24" long; loosen dough. Combine ½ c. lightly-packed brown sugar and ½ c. liquid honey; spread over dough and sprinkle with ¾ c. broken walnuts. Beginning at a long side, loosely roll up like a jelly roll. Lift carefully into a greased 8½" tube pan and join ends of dough to form a ring. Brush top with melted butter. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 45-50 minutes. Brush top with honey and sprinkle with chopped walnuts.

## WE HEAR?

Don't pass up the Old Timers Dance Oct. 15th. Everyone turn out and have a good time.

Mrs. Jane Anderson of Edmonton spent the weekend at the home of Mr. and Mrs. Glyde Anderson.

The Anglican W.A. will hold a Pie Sale from 4 to 5 p.m. Saturday, Oct. 4th in the Egg Grading Station.

Mrs. Leon Coates and daughters, Ione and Mrs. H. Hay entertained a few friends on Friday evening in honor of Mr. Leon Coates' birthday.

Mrs. M. Isaac left on Sunday to spend two weeks at the home of her son and daughter-in-law, Mr. and Mrs. George Isaac at Bowden.

A miscellaneous shower in honor of Miss Jolayne Milligan, a former resident of Carbon was held Saturday evening, Sept. 13 at the home of Mrs. A. J. McLeod with Mrs. Torrance and Mrs. McDonald as co-hostesses.

Contests were enjoyed by all after which the hostesses presented the gifts to the bride under a beautifully decorated parasol. The bride graciously thanked everyone. A delicious lunch was served.

Miss Violet Pattison and Mrs. Florence Gimbel were hostesses on Sunday afternoon at a miscellaneous shower in honor of Elaine Poffenroth, a former resident of Carbon, at Miss Pattison's home. Contests were played and a delicious lunch served by the hostesses.

Afterwards the bride was presented with many beautiful gifts displayed in a tastefully decorated laundry basket which was a gift from the two hostesses. The bride graciously thanked all those present.

Mr. John Vickers and Mrs. Eva Louis of Calgary were Sunday visitors at the home of Mr. and Mrs. Len Maxwell and also exalted on some old friends after 23 years absence from Carbon.

BORN—To Mr. and Mrs. Murray Saunders (nee Marie Bell) a daughter, Beverly Annette Aug. 30th in Drumheller hospital.

BORN—To Ms. and Mrs. Alf Holvik Aug. 31st, a daughter in a Calgary hospital.

BORN—To Mr. and Mrs. John Gordon, a (stillborn) daughter, Sept. 12th in Three Hills hospital.

## Level Land

Mr. Albert Tetz of Vernon, B.C. who was helping with harvest operations at the farm of John Leiske, left on Sunday evening for his home.

Mr. and Mrs. N. Tkochenko of Toronto were visiting with the S.D.A. Church and with Mr. and Mrs. Albest Grabo of Stettler. Mrs. Tkochenko is a sister of Mrs. Grabo.

Mrs. C. Graham and Mrs. Walter Hay were Friday and Saturday visitors at Calgary at the home of Mr. and Mrs. Peters.

We sincerely regret that we have not been able to give you good service the past few weeks but we expect to install better equipment in the near future at which time we'll be able to give you better than ever service.

Mr. and Mrs. Fred Tetz of Trochu were visiting with the S.D.A. Church over the weekend.

Mr. John Leiske, Marjorie and Mr. Albert Tetz were weekend visitors at Lacombe and Bentley in New York.

Mr. and Mrs. Fisher and Arlene of Bowden were weekend visitors with the S.D.A. Church and relatives.

Mr. Jacob Dais of Kelowna, B.C. was visiting with the S.D.A. Church and is helping his brother, John with the harvest.

Alan Herron, who has been visiting his aunt and uncle, Mr. and Mrs. Theo Tetz for the past month, has returned to his home in Calgary.

Mr. and Mrs. Godfred Tetz of Twin Falls, Idaho were visiting in this district for a week with his brother, Charlie and sister, Mrs. John Grabo.

Mrs. Inez York returned last week from her trip. She visited world famous Shamrock Hotel in her son, Mervin at New York.

and other points in Eastern Canada. Mervin once attended Level Land School and is now teaching in New York.

Miss Gwen Tetz, daughter of Mr. and Mrs. Theo Tetz of this district, is among the group of 45 girls from Calgary attending the convention of the Association of Desk and Derrick Clubs in Houston, Texas. More than 1000 girls from all over North America will take over the week from her trip. She visited world famous Shamrock Hotel in her son, Mervin at New York.

The Calgary girls all wore white cowboy hats and Mayor Mackay sent along a white cowboy hat for the Mayor of Houston. Each girl received a corsage from the Calgary Junior Chamber of Commerce and oilman Harold Herron gave each a box of chocolates. C.C. Cross passed out noise makers to the girls. After the convention the girls will visit New Orleans before returning to Calgary.
